Who does what?

Who does what?

- *Fisheries control rules are implemented and primarily checked by the national authorities and inspectors of Member States.*
- *The European Fisheries Control Agency (EFCA) in Vigo, Spain, organizes joint control campaigns called "Joint Deployment Plans" (JDPs), where inspectors from different Member States work together.*
- *The Commission has its own inspectors, but they do not inspect directly fishermen. Their main role is to verify/audit the control systems put in place by the Member States, and make sure that the CFP rules are enforced effectively and fairly across the whole of the EU.*
